### Safety notes

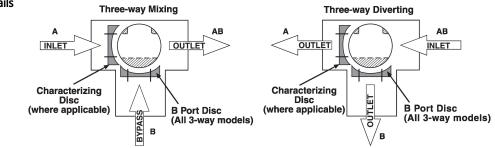

• WARNING: This product can expose you to lead which is known to the State of California to cause cancer and reproductive harm. For more information go to www.p65warnings.ca.gov

### **Product features**

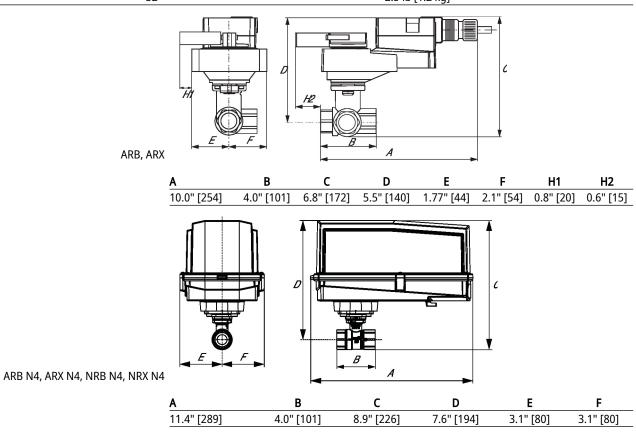

Application This valve is typically used in air handling units on heating or cooling coils, and fan coil unit heating or cooling coils. Some other common applications include Unit Ventilators, VAV box re-heat coils and bypass loops. This valve is suitable for use in a hydronic system with variable or constant flow.

#### Flow/Mounting details

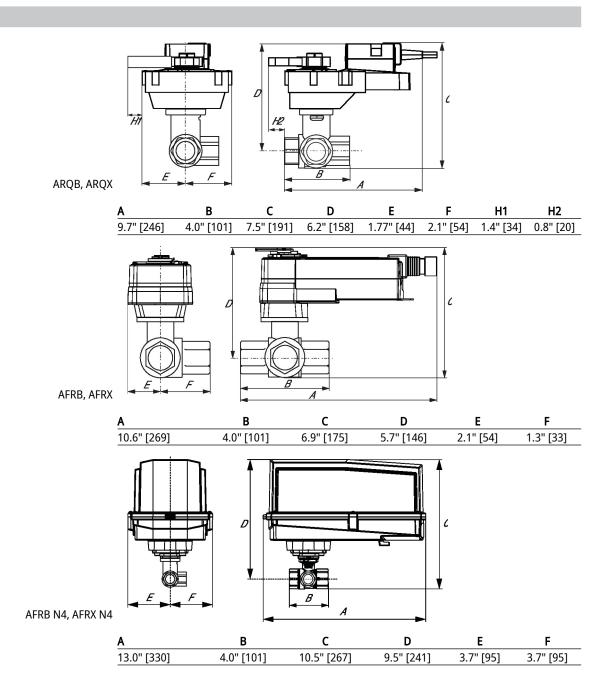

#### **Dimensions**

## On/Off, Floating point, Non fail-safe, 24 V

## **Technical data**

Electrical data	Nominal voltage	AC/DC 24 V		
	Nominal voltage frequency	50/60 Hz		
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V		
	Power consumption in operation	2.5 W		
	Power consumption in rest position	0.5 W 5.5 VA 1x SPDT, 3 A resistive (0.5 A inductive) @ AC 250 V, adjustable 0100%		
	Transformer sizing			
	Auxiliary switch			
	Switching capacity auxiliary switch	3 A resistive (0.5 A inductive) @ AC 250 V		
	Electrical Connection	18 GA plenum cable, 3 ft [1 m], with 1/2" NPT conduit connector		
	Overload Protection	electronic thoughout 090° rotation		
Functional data	Direction of motion motor	selectable with switch 0/1		
	Manual override	external push button		
	Angle of rotation	90°		
	Angle of rotation note	adjustable with mechanical stop		
	Running Time (Motor)	90 s / 90°		
	Noise level, motor	45 dB(A)		
	Position indication	Mechanical, pluggable		
Safety data	Power source UL	Class 2 Supply		
	Degree of protection IEC/EN	IP54		
	Degree of protection NEMA/UL	NEMA 2		
	Enclosure	UL Enclosure Type 2		
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02		
		CE acc. to 2014/30/EU and 2014/35/EU		
	Quality Standard	ISO 9001		
	UL 2043 Compliant	Suitable for use in air plenums per Section 300.22(C) of the NEC and Section 602 of the IMC		
	Ambient humidity	Max. 95% RH, non-condensing		
	Ambient temperature	-22122°F [-3050°C]		
Storage temperature		-40176°F [-4080°C]		
	Servicing	maintenance-free		
Weight	Weight	2.5 lb [1.1 kg]

Electrical installation					
<ul> <li>INSTALLATION NOTES</li> <li>Provide overload protection and disconnect as required.</li> <li>Actuators may be connected in parallel. Power consumption and input impedance must be observed.</li> <li>Actuators may also be powered by DC 24 V.</li> <li>Actuators Hot wire must be connected to the control board common. Only connect common to neg. (-) leg of control circuits. Terminal models (-T) have no-feedback.</li> <li>Actuators with plenum cable do not have numbers; use color codes instead.</li> <li>One built-in auxiliary switch (1x SPDT), for end position indication, interlock control, fan startup, etc.</li> <li>Apply only AC line voltage or only UL-Class 2 voltage to the terminals of auxiliary switches. Mixed or combined operation of line voltage/safety extra low voltage is not allowed.</li> <li>Warning! Live electrical components!</li> <li>During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.</li> </ul>
