

Technical data sheet

Damper actuator for factory installation in an equipment in technical building installations

- Air damper size up to approx. 0.2 m²
- Torque motor 1 Nm

Technical data

- Nominal voltage AC/DC 24 V
- Control Open/close, 3-point
- Mechanical interface Form fit 8x8 mm
- with plug

Picture may differ from product

Electrical data Nominal voltage AC/DC 24 V Nominal voltage frequency 50/60 Hz Nominal voltage range AC 19.228.8 V / DC 19.228.8 V Power consumption in operation 1 W Power consumption in rest position 0.5 W Power consumption for wire sizing 2 VA Connection supply / control Connector plug (Cable-side connector not included in scope of delivery) Connection plug Molex Mini-Fit Jr. 39303035 Parallel operation Yes (note the performance data) Direction of motion motor counter-clockwise rotation Direction of motion note See "Electrical installation" (table in v diagrams) Manual override No	or socket

Manual override No	viring
Angle of rotation 0287.5°	
Angle of rotation note can be limited by adjustable mechan stop 315° with one end stop clip mounted actuator Without limitation: endless	
Running time motor 22 s / 90°	
Sound power level, motor 35 dB(A)	
Mechanical interface Form fit 8x8 mm	
Position indication No	
Safety data Protection class IEC/EN III, Safety Extra-Low Voltage (SELV)	
Power source UL Class 2 Supply	
Degree of protection IEC/EN IP20	
Degree of protection NEMA/UL NEMA 1	
Housing UL Enclosure Type 1	
EMC CE according to 2014/30/EU	
Certification IEC/EN IEC/EN 60730-1 and IEC/EN 60730-2-	-14
UL Approval cURus according to UL60730-1A, UL60730-2-14 and CAN/CSA E60730-	

Safety data	Hygiene test	According to VDI 6022 Part 1 / SWKI VA 104-01, cleanable and disinfectable, low emission
	Type of action	Type 1
	Rated impulse voltage supply / control	0.8 kV
	Pollution degree	2
	Ambient humidity	Max. 95% RH, non-condensing
	Ambient temperature	-3050°C [-22122°F]
	Storage temperature	-4080°C [-40176°F]
	Servicing	maintenance-free
Weight	Weight	0.09 kg

Safety notes

- This device has been designed for use in stationary heating, ventilation and air-conditioning systems and must not be used outside the specified field of application, especially in aircraft or in any other airborne means of transport.
- The device is not designed for applications where chemical influences (gases, fluids) are present or for utilisation in corrosive environments in general.
- The device is considered a component and intended for installation in an equipment at the factory. The required protection against accidental contact with live parts must be provided by the damper or system manufacturer.
- Only authorised specialists may carry out installation. All applicable legal or institutional installation regulations must be complied with during installation.
- The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user.
- The plug connections may only be used according to the installation instructions. The Molex
 plug connection has a mandatory locking mechanism that prevents unintentional
 disconnection. Operating the locking mechanism and the entire plug connection under
 voltage is not permitted.
- To calculate the torque required, the specifications supplied by the damper manufacturers concerning the cross-section and the design, as well as the installation situation and the ventilation conditions must be observed.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.

Product features

Simple direct mounting	The actuator with its hollow shaft is mounted in a form-fit manner directly on the damper shaft and then secured with the anti-rotation clip, to prevent it from rotating. The anti-rotation clip Z-ARCM is not included in the scope of delivery.
Adjustable angle of rotation	Adjustable angle of rotation with mechanical end stops.
High functional reliability	The actuator is overload protected, requires no limit switches and automatically stops when the end stop is reached.
Restriction 3-point controller	- For applications with 3-point control (open loop), a minimum pulse length of 1 s is recommended to increase position accuracy.
	- For applications with 3-point control (closed loop), a pulse length of 0.5 s is possible to reduce oscillation.
Parts included	

End stop clip

Accessories

Mechanical accessories	Description	Туре
	Anti-rotation clip, Multipack 20 pcs.	Z-ARCM
	End stop clip, Multipack 20 pcs.	Z-ESCM
	Protective covering, Multipack 20 pcs.	Z-PCUM

Electrical installation

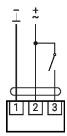

Supply from isolating transformer.

Parallel connection of other actuators possible. Observe the performance data.

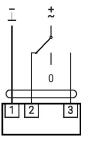

Cable-side connector socket is not included in scope of delivery

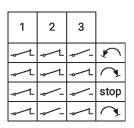

The plug connections may only be used according to the installation instructions. The Molex plug connection has a mandatory locking mechanism that prevents unintentional disconnection. Operating the locking mechanism and the entire plug connection under voltage is not permitted.

AC/DC 24 V, open/close

AC/DC 24 V, 3-point

Molex PN 39014030 / 39000039 (0.5...1.0 mm²)
